Two Divisions In Commons

CCF Filibuster Postpones Settlement of Rate Issue

OTTAWA, April 22.—(CP)—A CCF filibuster has postponed final settlement of the freight-rate issue in the Commons.

The party launched the filibuster when it failed by a vote of 100 to 80 to win postponement of the debate until next week. The division was the second during the day.

Earlier members voted 110 to 89 to uphold the government on a motion of non-confidence sponsored by the Progressive Conservative party. The motion was moved after the government declined to delay application of the 23-per-cent increase in freight rates, authorized by the Board of Transport Commissioners.

A similar CCF motion of non-confidence remains to be decided. The CCF moved to adjourn the debate on the freight-rate issue would not be settled before the provinces have a chance to appeal to the cabinet.

The premiers of the Maritimes and the Western provinces are due to meet here Saturday to plan for the launching of an appeal. They tentatively are scheduled to see the cabinet Wednesday, but the appointment may be advanced.

When the adjournment motion failed, the CCF members simply took the floor and held it until the house adjourned. The government then announced that the debate would not be resumed until next week.

The adjournment motion was proposed by J. W. Burton (CCF—Fulford). Before he moved it, Speaker Gaudet Fautsch threatened to name him for waltzing away from the subject of freight rates.

"Naming of the member would automatically have brought censure from the chamber," said the speaker.

LIBERAL ROLLS PARTY
Only one member—George Crookbank (L—Fraser Valley)—bolled from government ranks to support the Progressive Conservative motion of non-confidence.

Prime Minister Mackenzie King did not vote because he was paired with John Bracken, Progressive Conservative leader, confined to his home with lameness.

A. L. Smith (PC—Calgary West) took the unusual course of advising the house he was not voting because he had long business associations with the two railways.

The Progressive Conservative motion, if carried, would mean defeat of the government. It asked the house to express regret that the government had not sought to remove inequities in the freight-rate structure before sanctioning the increase.

It also asked that members express regret at the government's refusal to delay the increase until the provinces had had opportunity to appeal. The new rates went into effect April 8.

No Further Penalty For J. L. Lewis

Recommendation Of Govt. Accepted In Contempt Case

WASHINGTON, April 23.—(AP) Judge R. Alan Goldsborough today postponed indefinitely any further contempt penalty against John L. Lewis and the United Mine Workers Union.

Goldsborough accepted a United States government recommendation that he impose no further punishment at this time. Assistant Attorney General Graham Morrison said no useful purpose could be accomplished by new fines against Lewis and the union now.

Last Tuesday, Goldsborough fined Lewis \$20,000 personally and the UMW \$1,000,000 for criminal contempt of court. The criminal and civil contempt finding was based on their disregard of an April 3 court order to stop the coal strike.

85 PER CENT WORKING
Morrison told Goldsborough that 85 per cent or more of the soft coal miners have returned to work. Therefore, Morrison moved that a civil contempt sentence be put off "until further notice."

Morrison said the government work movement in United States coal fields.

The government counsel dictated, however, that the Justice department might reconsider the charge if there is a resumption of the walkout.

DISPUTE NOT SETTLED
But miners' pension dispute that caused all the trouble still was far from settled. This problem is up to a three-man board of trustees. Lewis represents the miners, Ezra Van Horn the mine owners and Senator Styles Bridges (Rep.—N.H.) is the neutral member.

NINE TIMES UP, 9 CONVICTIONS
Eric Patterson, 1967 75 street, appeared in court Friday on his ninth traffic offence—and was convicted for the ninth time.

Charged with dangerous driving, he was fined \$40 and costs or two months. His driver's license was also suspended for two months.

Two hours after the shooting, Davidson was arrested in the Montreal—born pistol—coal heavy to the gallow, climbing a trail of unhappy homes and broken marriages.

Washout Delays Westbound Trains
Canadian National Railways west-bound trains due to arrive here today have been delayed about 10 hours by a washout on the main line near Unity, Saskatchewan.

Unity is about 200 miles east of Edmonton.

The trains have been re-routed through North Battleford and are scheduled to arrive at 6:40 this morning. The delay is expected to be the one due at 6:30 p.m. will likely reach here at 2 o'clock.

Romania Protests
BUCHAREST, April 23.—(AP)—The Romanian government has protested to the Greek government that was described as the persecution of Romanian minorities in Greece, it was learned last night.

GREAT JUGGERNAUT THREATENS SMUTS

CAPETOWN, April 23.—(Reuters)—Prime Minister Smuts told the men and women of South Africa's defence forces today to "Keep your armor bright. A great power is on the move." He did not mention any country by name.

In a speech at a government moment investiture Smuts declared: "The present time is the most grave and dangerous in history."

"It is no longer the case of small and isolated nations sparing. A powerful juggernaut is moving."

"We do not want war. We are not war-mongers and for that reason must be prepared. We want him to know that he must either stop or fight his way through, thereby facing danger himself."

"Today is a very proper occasion for a special stand by your defences in case you may have to fight again."

PRIME MINISTER SMUTS may have to fight again. "The world is once again in danger. The shadow is moving forward over Europe and already covers a number of countries."

"It looks almost that instead of peace and security and the maintenance of the ideals for which we fought there is danger and mischief."

"It is difficult to say when we will be at the end and what the outcome will be."

Skarliki Committed On Narcotics Charge

Frank Skarliki, no fixed address, was committed for trial in supreme court Friday on a charge of illegal possession of drugs. A preliminary hearing was conducted in city court.

Detective J. B. Atrial, Sanitiser, city police and Corporal Herb Silver, head of the RCMP narcotic squad, arrested the accused on April 15.

From information received the three discovered him beside his parked car on Greenhill.

THREE PARCEL AWAY
Detective Atrial said that as they drove beside Skarliki's auto he saw him throw a parcel over the guard railing on the hill.

The detective went over the bank and brought back two parcels.

Corporal Herb Silver said he opened them and found they contained poppy heads. On searching Skarliki's auto they found a pile of loose seeds on a piece of sack.

Dr. E. H. Moss, University of Alberta botanist, testified that the seeds were of the opium variety.

TCA Will Fly Immigrants Here
OTTAWA, April 23.—(CP)—The government announced today that Trans-Canada Airlines would fly 10,000 immigrants to Canada from Britain in 1948.

Fisheries Minister MacKinnon, acting resources minister, announced that the government had arranged to fly the Britons into Montreal and Toronto.

He also disclosed that the government had decided to increase the number of displaced persons—permitted to enter Canada and permitted residence—from 20,000 to 30,000, so 15,000 displaced persons have entered Canada.

ISTANBUL, April 23.—(AP)—Island newspapers reported today that two foreign submarines have been seen prowling in the Sea of Marmara.

Rampaging Waters Threaten Winnipeg

By The Canadian Press
Flood conditions steadily were worsening today across Western Canada's prairies, with more homes being evacuated in the path of surging waters.

In Winnipeg, City Engineer W. D. Hurst painted a grim picture of the flood potential, predicting that the city shortly would be in the midst of a serious flood. The Red River, constantly swelled by waters spilled from the Pembina hills 60 miles south, was spreading steadily.

At Drumheller, however, the level of the Red River here this morning had dropped about six feet lower than the peak Thursday night. During the current flooding, the river which has a normal flow of between four and six feet, had risen to as deep as 21 feet.

North Drumheller was flooded again Thursday night as the Michichi Creek went on the rampage, spilling flood waters over its banks which forced about 50 families to leave their homes—many of them for the second time.

Other centres in the Drumheller area, including Lacombe, Wainwright and Newcastle Flats, which have been hit by the rampage of the Rosebud and Kneehill creeks on Wednesday, were comparatively quiet Thursday night.

THREATENS WINNIPEG
The Assiniboine river, joining the Red at Winnipeg, was expected to reach its peak during the last 24 hours at Brandon, 130 miles west, and full force of its flow was expected to hit Winnipeg anytime.

Men were standing by for emergency at two Winnipeg municipal hospitals, King George and St. James, which also had been sent to St. Jean Baptiste and Letellier, near the Edmonton district. Water was reported flowing through the streets in these centres.

In Saskatchewan spring rains brought new headaches to flood workers seeking to save dams and bridges from rising streams, while

RED CROSS ACTIVE
The Red Cross, meanwhile, reported receiving more appeals for supplies from rural Manitoba districts. Yesterday six flat-bottomed boats and 40 blankets were shipped to Emerson, 30 miles from today.

Barbara Chipman, Red Cross publicity director for the province, said boats also had been sent to St. Jean Baptiste and Letellier, near the Edmonton district. Water was reported flowing through the streets in these centres.

MAN OF BROWN WANTED HERE
What has become of that man of brown, the villain blacksmith?

A city dairy firm, whose present smelt has reached retirement age, has finally gone to England in its search for a trained man who can shoe horses.

Unable to locate one in Canada, the firm has addressed a plea to R. A. McMillen, Alberta's agent general in England, offering a guarantee of employment to a smith who will come to Edmonton.

Tram Derailed, Delays Traffic
Two interruptions in west and street car service took place Friday morning.

The first and less serious occurred when a street car was derailed on 124 street. Early morning travellers were not long delayed by this break.

At 8 this morning an east bound street car on 107 avenue was derailed just at the railway crossing on 121 street. Passengers were transferred to city buses and a shuttle service was run along 124 street and on 107 avenue to take care of the morning rush. Service resumed shortly after 9 o'clock.

COOLER WEATHER TO FOLLOW MILD SPELL
Milder weather is in store for the Edmonton region today and Saturday morning, but further cold air may move in with the North Saturday afternoon.

Warm air, which has been moving slowly toward Edmonton for the last two days, is expected to reach this area this afternoon and send the mercury to the highest peak in the last week.

Thunder where a high of 58 was reported. Cold air, which has been covering almost all of the province, is moving eastward and is being followed by warmer air. The milder air reached Jasper Thursday where a high of 58 was reported.

Outlook for Saturday morning is clear and mild, but a cold air mass is threatening from the north. This would again send temperatures far below normal.

Elizabeth Becomes Lady of Garter In Age-Old Ceremony of Order

By GERALDINE HILL
WINSTON, England, April 23.—(AP)—Princess Elizabeth and the Duke of Edinburgh were invested with the Order of the Garter today.

The ceremony was held in the vast throne room of Windsor Castle. It was witnessed only by those privileged by virtue of their membership to attend.

King George touched with a sword the shoulders of Elizabeth and Philip, and the Duke of Portland, Lord Cranworth, and the Earl of Scarborough.

According to the best documented legend, the Order was founded in 1349 when King Edward III was dancing with the

MANY CANADIANS FOR PALESTINE

TORONTO, April 23.—(CP)—The Daily Star said yesterday to an Ottawa dispatch it was learned on high authority that young Canadians numbering "in the hundreds" are heading for Palestine to join either Jewish or Arab forces. The story says many obtain visas for such countries as Sweden and France, claiming they are going for business or personal reasons. A passport official was quoted as saying applications are refused when there is any suspicion that applicant plans to enlist in the Palestine fight.

Overdose of Pills, Condition Serious

BURBANK, Calif., April 23.—(AP)—Actor Leo Chaney, Jr., was taken to hospital last night suffering from what police termed an overdose of sleeping tablets. The 43-year-old son of the late character actor took the pills at his North Hollywood home, police said. Hospital attendants reported his condition was serious.

House Adjourns For Premiers' Meet

VICTORIA, April 23.—(CP)—The British Columbia legislature adjourned yesterday until Monday to enable Premier H. H. Johnson to attend the freight rate conference of Maritime and Western premiers at Ottawa Saturday. The conference arranged by Western premiers, followed the Board of Transport's announcement of a 21-per-cent increase in freight rates granted to railways.

Romania Asked Speed Repatriation

BUCHAREST, April 23.—(AP)—Reliable sources said yesterday Britain has asked Romania to speed up the repatriation of Romanian displaced persons from the British zones of Austria and Germany. A note said there are still 12,000 Romanian displaced persons in the zone.

TRUMAN WILL MEET STALIN—ONLY IN U.S.

WASHINGTON, April 23.—(AP)—President Truman reiterated yesterday his willingness to meet with Premier Stalin in Washington, and his unwillingness to leave the United States for such a conference.

As he has said many times before, the president repeated again to a press conference that he would be glad to see the Soviet leader any time Stalin wants to come to Washington. A reporter asked whether he was willing to see the Soviet leader here or anywhere else. Truman replied that he did not expect to go outside of the United States to attend any conference. He said again that he would be glad to see Stalin if the latter came to this country.

Judgment Queried On Coarse Grains

Manitoba Ultra Vires Ruling Is Raised in Commons

OTTAWA, April 23.—(CP)—A Manitoba court judgment on the handling of coarse grains set off a series of questions in Commons yesterday. John Diefenbaker (PC-Lake Court) referred to the decision in which Chief Justice E. K. Williams of the Manitoba supreme court said a federal government order-in-council dealing with the handling of oats and barley was ultra vires.

Diefenbaker said that in view of the decision he wanted to know what the government planned to do about a recent bill which would give the Canadian Wheat Board authority to handle the marketing of oats and barley. Trade Minister Howe said the decision was made on a point of law and not on a point of fact.

"POINT OF FACT" John Hackett (PC, St. John's), president of the Canadian Bar Association, interrupted the discussion to say that the decision was made on a point of fact. He said that not being a lawyer he was not going to argue the question. He said the matter would be referred to the justice department.

Hackett then asked Justice Minister Borden what course the government planned to take as a result of the judgment. Borden said he had not yet had an opportunity to discuss the matter with the officials of his department.

Italo Vote Result Is "Encouraging"

WASHINGTON, April 23.—(AP)—President Truman said yesterday "free peoples everywhere" will be encouraged by the outcome of the recent Italian elections. At a press conference the president authorized reporters to quote him as saying: "I know that free peoples everywhere 'free peoples everywhere' will be encouraged by the outcome of the recent Italian elections. 'The results demonstrate once again the vitality of Italian democracy and the determination of the Italian people to maintain their freedom and their liberties.'"

FRANKFURT, April 23.—(Reuters)—United States legal authorities informed a German mother yesterday that the fact that her baby was born in a United States Army jeep did not entitle it to American citizenship.

Income Tax Fair, Too Complicated

CALGARY, April 23.—(CP)—Filling out income tax forms is a doubly expensive business for farmers, the Alberta Federation of Agriculture said yesterday. The federation reported many farmers are paying more to someone to make out their forms than they are paying in taxes. AFA president Roy Marler termed the tax fair in principle but too complicated in execution.

Canada's Share ERP Set at \$1,600,000,000

By Clyde Blackburn

WASHINGTON, April 23.—(CP)—Estimated values of Canadian commodities required by European recovery program recipients in the first 15 months of operations add up to about \$1,600,000,000.

These figures are scattered through tentative tables now being studied by the house appropriations committee after submission by Paul G. Hoffman, economic co-operation administrator. They are based upon submissions made by Canadian authorities over the last six months on availability of Canadian commodities for European aid program.

It is understood they constitute what would be the normal exports from Canada to those countries if they were able to trade in the ordinary way.

MAIN QUESTION

The main question to be decided is the extent to which these exports will be paid for with United States aid dollars.

This will be discussed at a meeting of the Economic Co-operation Administration (ECA) in Washington, D.C., on April 24.

Farm Groups Meet On Coarse Grains

CALGARY, April 23.—(CP)—A meeting of prairie farm organizations to set up a common policy regarding marketing of coarse grains will be held in Regina early next month, it was announced here last night.

U.S. and Canadian Business Men Meet

WASHINGTON, April 23.—(CP)—Canadian and United States business men will discuss the possibilities of a customs federation today at a meeting scheduled to open at Hot Springs, Va.

This is an annual affair handled by the local head office of the United States Chamber of Commerce. Last year, delegates met at Virginia Beach, Va.

Other subjects to be discussed at the two-day meeting will be Canada's dollar shortage, Canada's share in the European recovery program and economic cooperation generally between the two countries. Bruce Hill, of St. Catharines, Ont., president of the Canadian Chamber, will head the Canadian group. Others in the party include Senator S. S. McKee, Vancouver and D. C. McKenzie, Winnipeg.

Exiled Leaders Ask Soviet Probe

LAKE SUCCESS, April 23.—Exiled leaders from Russian-dominated countries yesterday asked the United Nations Security Council to investigate the Soviet role in Eastern Europe.

In a memorandum circulated privately to members of the council, the exiled leaders charged the Soviet Union with aggression against Rumania, Bulgaria, Hungary, Poland, Romania and Yugoslavia.

The memorandum was signed by the following members of the central committee of the International Peasant Union: George M. Dimitroff, Bulgarian National Agrarian Union; Dr. Vlado Masek, Croatian Peasant Party; Ferenc Nagy, former Hungarian premier; Stanislaw Mikolajczyk, former premier of Poland; Grigore N. Buzdugan, Rumanian National Peasant Party; Milan Gavrilovic, Serbian Agrarian Union.

Farm Directors Discuss Action

AFU President Thinks Differential Proper Approach

Directors of the Alberta Farmers' Union will meet soon to discuss possible action on the freight rates issue.

Carl J. Stimpfle, president of the AFU said today he considered the proper approach for western farmers on freight rates is to contest the differential and not on the straight question of a general increase in rates.

"It seems silly to have regional slittings of the Board of Transport Committee if we are to have the only point it can decide, I understand, is whether or not the board can authorize an increase in rates," Mr. Stimpfle said.

"The real point of issue to my mind, is why it costs more to ship milk from Edmonton to Vancouver than to ship it from Quebec to Vancouver," he added.

Mr. Stimpfle said he did not know whether or not the AFU board of directors would decide to submit a brief to the regional slittings of the Board of Transport.

"We will decide that at the board meeting," he said.

No date has been set for the meeting as yet.

Col. Paul Grainer, USAAF liaison officer with the RCAF here since July, 1947, is being transferred to Alaska where he will be attached to the Alaskan Air Command. His duties here will conclude on May 1. He is being succeeded by Col. Francis Brady, former deputy chief of air transport service of the Air Transport Command.

Lac La Biche Man Innocent

Eugene Facette, Lac La Biche Mission, was found not guilty in supreme court Friday by Mr. Justice G. B. O'Connor on a charge of converting to his own use 57 mink entrusted to him by Laurent Briere, Horseshoe, Ont.

The jurist held that the complainant could obtain damages from the defendant in a civil action, but there was considerable doubt that Facette had fraudulently converted the animals.

The mink were left with Facette under a breeding agreement, but lack of feed in the area made it impossible to carry through its terms without incurring serious financial loss.

Feed had to be brought in by air plane, truck and other means of transport because of uncertain travel conditions of Lac La Biche.

It was disclosed in evidence also that some of the mink delivered by Briere were sick and died.

Letters from the accused to Briere disclosed inability to carry through the original breeding agreement, and offered tentatively an alternative arrangement.

These factors, the jurist considered, supported the idea that the accused did not fraudulently convert the animals.

Welsh Chorus Gives Concert

Edmonton Welsh Male chorus presented a concert in the Masonic Temple Wednesday.

They were under the direction of Jack Williams.

The chorus was formed by the amalgamation of two veteran chorals groups, St. David Welsh Male Voice Choir and Edmonton Male Chorus.

In a wide range of choral numbers, the combined voices of the men displayed superb artistry in harmony and control.

Soloists were Mrs. D. McLeod, soprano; Mrs. E. Frick, contralto; William Smith, tenor; Jack Williams, bass; Pat James, baritone; and Jacqui Rogers, pianist.

Members of the group were featured in a selection of songs, duets and quartets.

The chorus was accompanied by Betty Sims.

Canada's Chief Scout Has Message of Cheer

Concentration of effort to solve every-day problems would lead to a solution of national and international difficulties, according to Viscount Alexander, governor general of Canada in a message to Canadian Boy Scouts.

His Excellency, chief scout for Canada and his message was delivered Friday to Hon. N. E. Tanner, minister of lands and mines, in his capacity as provincial commissioner for scouting in Alberta.

Friday was St. George's Day, celebrated by Scouts all over the world as their patron saint's day.

Basing his message on the ten classical principles of war, the Chief Scout laid particular stress on the particular rules dealing with maintenance of aim, economy of effort and cooperation.

"If every individual has a clear purpose at life and is prepared to work for it, he will not only benefit himself, but achieve the great aim of making his country happier, stronger and more prosperous," the message said.

means of the ends a nation hopes to gain by peaceful means."

The principles which guide general in wartime were equally applicable to days of peace, he said.

Co-operation was an important factor. Only by exercising it will world organizations for peace be successful.

He pointed to the British Commonwealth of Nations as a great example in co-operation which should serve as a guide for the rest of the world.

Canada by co-operation with the Commonwealth and with the United States stands as a bridge between the old world and the new to bring two great groups of freedom-loving people in closer harmony, he said.

Company's Policy One Of Expansion

Among the out-of-town guests attending the opening of The Canadian General Electric Company's recently constructed warehouse and office is R. S. Trowsdale, CGE district manager from Calgary.

In commenting on his company's policy of expansion in Alberta, the district manager stated:

"Our service to the electrical industry in Alberta dates from 1902. We have great faith in the future of this province and consider that the investment of our own capital in buildings and increased stocks is amply justified."

"We hope," he continued, "to go on expanding in step with the industrial and power developments of this great province."

"The future looks encouraging to us, and we feel that Alberta is entering an era of great commercial and industrial development of the natural resources we have in this abundance."

Mr. Trowsdale also paid tribute to A. E. Ormsby, manager of the local office and pointed out that the planning and construction of the new building had been carried out under the close supervision of the Edmonton manager.

Compensating the district manager were B. A. Chappin, R. E. Venables and P. F. Peck, all of Calgary.

Minister Accepts Responsibility Withholding Awards

Responsibility for reluctance of highways department officials to disclose awards for road tenders was accepted fully Wednesday by Hon. D. B. MacMillan, minister of agriculture and acting minister of public works.

Asked when names of successful contractors in recent tenders awarded would be announced, Mr. MacMillan said he would have conference with department of public works officials and might make his announcement later.

The minister doubted the value of releasing such information to the public.

He said residents of districts not mentioned in any specific announcement tend to become disturbed and to demand immediate attention to the needs of their own area.

1943 Penny Hoax Crops Up Again

No Copper Cents Turned Out—But Some Think So

By Clyde Blackburn
WASHINGTON, April 23.—(CP)—That old hoax about a free automobile for anyone able to produce a 1943 copper cent has cropped up again.

The catch is that in 1943 the United States did not make a copper one-cent piece. That year, as wartime measure, the one-cent piece was replaced by a zinc-plated one.

About two years ago the treasury department was flooded with letters from people who had heard in some vague radio broadcast or otherwise that anybody turning in a 1943 copper cent would get a new automobile.

The inquiries came from all parts of the United States and Canada and the treasury has been unable to find out how or where the rumor originated.

There were thousands of letters and then they stopped coming. Now they have started again. Letters of inquiry are trickling into the treasury and there have been inquiries from Canada.

The treasury sends out a form letter reply stating that there is not a 1943 copper cent in existence and even if there were they know of no one willing to give an automobile for it.

ONE PROVES FAKE
When this hoax first started one woman wrote back that she did have a 1943 copper cent. On request she sent it in to the treasury and, sure enough, it looked like the real thing.

But the secret service laboratory quickly discovered that it was one of the steel-plated coins made with copper.

Metal coins are not withdrawn and replaced as in the case of paper money except in odd cases when the characters are worn off.

The zinc-plated pennies were issued only around 1943 and they still pop up in change—although rapidly disappearing.

No one knows where one-cent pieces do not but they disappear at a fast rate. All the bills and coins issued in 1943 were sent out of the mint and presumably still are in circulation, but they appear less frequently every day.

The 58-member political committee of the U.N. General Assembly, with it came further attacks against the United States proposal for a temporary trusteeship over the embattled Holy Land.

An Australian resolution urging immediate partition was urged.

Churchill's Memoirs Are Widely Critical

NEW YORK, April 23.—(AP)—Winston Churchill devoted the second installment of his war memoirs to the Russian invasion of Austria and the sacrifice of Czechoslovakia by the agreement at Munich.

The memoirs are being published in the United States by Life Magazine and the New York Times.

Canadian rights are held by the Montreal Standard. Yesterday's installment, covering 1938-1939, is titled Part II of "The Gathering Storm," the first five volumes of the wartime prime minister's war memoirs.

Churchill criticizes the French government for standing by to fight Germany in the event of a treaty to Germany to Czechoslovakia. He expresses the belief that President Edward Beneš of Czechoslovakia acted in yielding to the terms of Munich.

And he says he always has believed that if Beneš had defended his territory, France would have come to his aid and Britain would have moved to the assistance of France.

Churchill also criticizes Prime Minister Neville Chamberlain and the French government for agreeing that there should be no consultation with the Czechs and for leaving Russia out of the conference both before and at Munich.

LAUNCHED DEFENSE BOMBARDMENT

He says that as a result of his private inquiry into German war expenditures he has concluded that the British government in 1936 to launch a defense program. However, this was interpreted by the critics that led to the abdication of King Edward VIII.

The following year, Churchill, then, Joachim von Ribbentrop, then German ambassador to Great Britain, invited him to his navy and told him Germany wanted a free hand to expand in eastern Europe.

He says that when he told von Ribbentrop Britain would not support Germany, the German replied that war was inevitable.

Churchill discloses that President Roosevelt made an attempt in 1938 to invite representatives to Washington to discuss the situation in the continent, but that he was rebuffed by Prime Minister Chamberlain, who wanted to pursue his own efforts with Germany and Italy.

ROBIN CREATES REAL PROBLEM

CHICAGO, April 23.—(AP)—A mother robin has created a traffic problem at the Stuart Gross home.

A couple of weeks ago the robin built a nest on top of a light fixture at the Gross' front door.

Members of the Gross family are using the back door until the young are hatched. All visits to the home are conducted to the back door.

Strangled Man's Body Identified

WINDSOR, Ont., April 23.—(CP)—A body found yesterday in a water-filled suburban ditch was identified last night as that of Reinder Kuindersma, 22-year-old Windsor lathe hand.

Reinder, 22, M. Asselme, attributed death to strangulation by a length of butcher's skewer cord knotted about the neck.

The coroner said he also found a star-shaped hole at the back of the victim's skull which could have been caused by a brick or heavy stone.

The victim was identified by Kuindersma's brother, Peter, who said his brother spent 14 years in the army and since discharge had travelled with a "fast East-End gang."

Reinder was the body apparently had lain in the ditch three days.

Bevy of Beauties Bustle Backstage at Ice Cycles of 1948

PRETTY AS A PENNY. "Ice Cycles" Joan "Penny" Penwarr of Halifax, gets a last moment adjustment to her costume from the show's travelling wardrobe mistress Maybelle Bussey.

BOOGIE SKATER Yvonne Broders, of Denver, limbers up backstage, before skating into the spotlight for her solo "Rhythm" number by performing calisthenics on skates which would defy less agile individuals under more favorable conditions.

FINAL CHECK is given skate laces before gliding onto the ice by feature skaters Nadine Thompson and Narena Norris. To a skater in intricate figure or adagio skating a slip here could mean disaster on the ice a few moments later.

Ice Cycles of 1948 Takes City by Storm

Chris Kelley, take a bow. Kelley, the company manager of Ice Cycles, came back to Edmonton Thursday, following a disastrous year last year, and treated the natives to the finest ice show ever seen in western Canada.

From the opening overture by George Hackett to the Scotch Lullaby chorus two and one-half hours later, the Ice Cycles of 1948 can cap honors anytime for one of North America's top entertainment efforts.

To pick a star from the cast of the Ice Cycles would be tantamount to selecting the most heroic man in the Second World War.

The Medieval pageant, featuring 48 young girls and skating star Edna Adair, opened the show in a blaze of splendor.

From there the show moved at a rapid pace as Edmontonians raised a continual round of applause for beautiful costumes and expert skating.

The Dumbo number, featuring Leo Loe and Howard Sullivan was a big hit.

Yvonne Broders brought down the house with her rhythms in boogie.

Calvin Cook, Gary Johnson, Fred Thompson and Buddy Lalonde had the spectators gasping as they went through a routine of trick skating.

Lalonde came back a few minutes later to win three crowns in his "Grandes Gals Girl" act.

It was one of the finest displays seen at the city arena in many years.

The Oriental Fantasy, one of the most colorful costumes ever seen in any ice show, was decided hit. Using "black light" for brilliant effect, the number starred Jane Zeiser and a chorus of 32 girls and two men.

Arthur Nelson, a clown from the top drawer, scored a big hit on two appearances.

Then came Bud McNulty. An description of this young war veteran would seem redundant. He was terrific.

Then there was the plastic number which cost thousands of dollars to produce. Every bit of it was worth it for the symmetry and precision displayed by 25 girls taking part.

Then there was the adagio dancer, Narena and Dick Norris. And Buddy Lalonde again as a jumping, speed skater.

And Ann Robinson and Eldon Adair in a sparkling duo number. Kelley seems to have a million of them.

They'll all be at the Edmonton Arena for four more nights.

NEW BANK BUILDING FOR JASPER AVENUE

TORONTO WOMAN SEEKS FATHER IN CITY AREA

J. A. Pinkert is urgently wanted by his daughter, Mrs. May Walker, Toronto.

The woman wrote city police here stating she last heard from her father two years ago. He was then living at Fisher House on the west end of Pigeon Lake.

Mrs. Walker states she wants to contact her father as her husband has been seriously ill since November last year.

Anyone having information should contact Detective Roy Dick, city police.

Plans Are Announced for Early Start on Construction

Plans for a new Bank of Toronto building to be erected on the northeast corner of 100A street and Jasper avenue, present site of the bank, at a cost of \$275,000. It will replace the present bank premises which have been in service since 1919.

Architectural style of the building will be neo-classic Mr. Northwood stated. It will be of steel frame and concrete construction, faced with stone inside and out.

The building is to be erected on a dark gray British Columbia granite, while the upper portion will be of Manitoba Tondal stone.

Interior finishing of the walls and floors will be of marble—much of it being Roman Travertine and Buttilini imported from Italy.

The building is to occupy the full site of the 120 by 36-foot lot with an exterior height of 37 feet. Public space in the completed building is designed to measure 19 by 15 feet with a 26-foot ceiling. Safety deposit and cash vaults are being built on the ground floor.

The basement will house rest rooms, vaults, storage space and a boiler room for gas heating and furnaces. Office space is being included on a mezzanine floor at the rear.

Work on the building is to be commenced immediately and it is expected that the rear portion measuring 30 by 90 feet will be completed by fall. Present banking facilities will then be moved into the completed portion while work proceeds with the front of the building.

General contractors are Christensen and Macdonald of Edmonton and subcontractors Lockebelle and Hile for plumbing and heating and Noble Electric for the electrical work.

General architects are Northwood and Chivers Ltd. of Winnipeg and George Heath Macdonald of Edmonton is resident architect.

INJURED MAN'S CONDITION IS IMPROVED

Condition of Michael Lesarski, 3813 116 street, was improved Thursday according to hospital authorities.

The 28-year-old truck driver was injured Wednesday when crushed between two trucks.

Witnesses said he was leaning over the front fender of his own vehicle when a truck from front rolled backwards against him.

The accident took place in the freight yards at 104 street and 104 avenue.

Lesarski suffered minor injuries and shock.

Traffic Crowded By Wrong Side Driver—Pays, Fine

Crowding traffic by driving on the wrong side of the centre line cost Lester Hough, 10301 106 street, a fine of \$5 and costs when he appeared in police court Thursday.

While driving down 88 street he was over the centre line partly into the lane of oncoming traffic.

Court was told there was no accident but he did crowd some of the other vehicles.

Sweeping Charge Made By New Publication

Enemies of "freedom and of Social Credit" on a worldwide basis are the "Communist-Socialist-Monopoly-Finance-Political-Zionist combine" according to a sweeping charge in the columns of the second issue of the Social Credit Challenge.

The publication representing itself as the official organ of the Douglas Social Credit Council urges the formation of Social Credit Action Groups to combat the attacks on the movement from outside and from within the Social Credit movement.

The latest edition makes international finance and international Communism as centred in international political Zionism, a fact which should have been brought to the attention of Canadians very forcibly by the espionage trials.

The newspaper sees a similarity of aim in attempts of Zionists to discredit Social Credit on the grounds it is anti-Semitic and Communist or Labor-Progressive statements to the same effect.

Known members of the Douglas Social Credit Council are A. V. Bourcier (S.C. Lac Ste. Anne), former chairman of now defunct Social Credit Board; H. Earl Ansley (S.C. Leduc), ousted in February as minister of education; J. P. Gilles, former editor, and Kenneth Harton, former writer for the Canadian Social Credit.

Breakfast Is Vanishing Canadian Eating Habit

By Bea Thrift

Breakfast is the vanishing Canadian meal. Many families are either too busy or too lazy to eat together.

Food has less flavor if one must eat it alone. You can prepare breakfast in ten minutes. But if it takes half an hour—it's time to wait. Remember—a good breakfast starts the day right.

Many people complain eating breakfast is a bore because the fare is so monotonous, drab.

Flip a bit of imagination into your breakfast cooking—serve broiled apple slices with bacon or tiny sausages... or eggs baked in cereal ramskins.

April and May is the most popular season for egg-frying. The chicken and breakfast is one of the best times to take advantage of a good supply of eggs.

Increasing quantities of eggs is causing the price to go down a tremendous matter of fact—bought a dozen eggs for 42c the other day. We were paying 42c not so very long ago.

Yesterday's murky, drizzly weather has us convinced that the rainy season is upon us.

Even though the sunshine into a rainy day in a bright garbaine raincoat—red, green, navy blue or beige.

You pay around \$40.00 and you have a good coat—water-repelling where coat that thrives in wet weather and is suitable for any occasion.

Or there are the less expensive cotton gabardine coats, in beige or gray that sell for \$35.00 in one store.

Block-stripe, with zipper closing—they're an exceptionally good buy.

Once again Edmonton women are taking advantage of a well-known shirt that is a real clearance sale.

There are suits, coats and dresses, as well as a great reduction in price.

Send twenty-five cents (25c) in coins (stamps cannot be accepted) for this pattern. It prints plain name, address, style number.

From this position assumed by actress Peggy Knudsen you can follow three motions to exercise neck, shoulders and diaphragm.

Why Grow Old?

By Josephine Lowman (The Friday Question Box)

A reader asks: "I have just two figure faults, one on the right shoulder and one on the left shoulder. I just will not do exercises but if I had only one to take I believe I would like it. Is there an exercise which corrects round shoulders and takes the fat off the diaphragm?"

A. This exercise, if done properly, is good for both defects: Stand erect with your feet apart and your arms at your sides. Bend your trunk forward and swing your arms between your legs. Keep your knees stiff. Now raise your trunk and bring your arms to the side, shoulder height, pulling back with the arms. Repeat this exercise.

Q. "I am five feet, five and one half inches tall and weigh 135 pounds. My bust measures 36 inches, waist 30 inches and hips 40 inches. How much should I weigh and what should my measurements be?"

A. You should weigh from 120 to 135 pounds. Your bust is out of line. Concentrate on chest exercises and count your calories.

Q. "I wrote once before and was very disappointed because I did not see my answer in your column. I wear glasses but before I changed my eyes, I was a very good swimmer. I have now glasses I still swim but not as much. This is terribly annoying to me. Can I swim without the lines between my eyes?"

A. Sorry you did not have an answer before, but there isn't one to answer all the questions. Try hard to remember to keep your eyes on the line.

Q. "I would like to know what to do with my figure. I am 32 years old, 5'2", 125 lbs. I have a very good figure. I am a very good swimmer. I have now glasses I still swim but not as much. This is terribly annoying to me. Can I swim without the lines between my eyes?"

YOUR BABY AND MINE

Providing Only Part Of Father's Duty

By Myrtle Meyer Eldred

When two grownups marry they agree to assume certain marital obligations. The husband, in most cases, assumes the obligation of earning the money to support the new home. The wife agrees to care for the home, prepare the meals and spend the money wisely and economically.

BOTH of them, consciously or unconsciously, obligate themselves to love, protect and care for the children born to them.

Yet, when children are born, there are fathers who saddle all this latter responsibility on the mother and assume as their privilege the right to criticize her and rant at the children, as if their rearing were no part of their efforts.

FATHER'S RESPONSIBILITY

A father's role in the family is fully as important as the mother's. He doesn't fulfill all of it when he brings home his weekly or monthly pay check. It is his responsibility, too, to give his children the love and companionship, the counsel and interpretation of life, which save a man from being a failure.

This offers a balance and provides children with a knowledge of the male and female attitudes, ideas and beliefs without which he has but a one-sided view of life and no understanding of his own sex.

Mrs. R.A.K. describes the influence of the father on the child. She writes: "My problem is driving my boys to be like their father and I cannot agree on the principles of child-rearing. He is of the old school and he thinks children are just children and not little people. I think they are little people and I am an apology if the occasion never arises."

NEVER KISSES

"He shows his love by teasing and never kisses, gives or holds them. He never tells them he loves them or gives them a word of praise."

It is too tragic when an intelligent father pits his puny knowledge against all that is known about children. If he disagrees with you, some good books might alter his opinion. You can convince him that you are right.

Our leaflet No. 78 "Help to Be Had From Books" may be had by sending a stamped, self-addressed envelope with your request to Myrtle Meyer Eldred, in care of the Edmonton Bulletin.

Power Resources Bill Is Approved

WINNIPEG, April 23—(CP)—The Manitoba legislature gave approval yesterday to a bill which is a preliminary step in the plan for consolidation of power resources in the province.

Earlier, in law amendments committee, Premier Stuart Gordon said the bill is necessary to avoid litigation which might "tie up the whole power problem in a knot" and leave the province with a serious electricity shortage in a few years.

The bill enables the province to cancel the City of Winnipeg's perpetual power lease at Pointe du Bois through a new Dominion-provincial agreement on natural resources. City Council held a special emergency meeting earlier yesterday to protect the bill.

Later, a city council delegation appeared before the law amendments committee with a request that the bill be delayed until negotiations had been carried on between the city and province.

Audrey Jackson Pledges Vows

In a recent wedding ceremony in Edmonton Audrey Helen Jackson, daughter of Mr. and Mrs. W. E. Jackson of Leduc, became the wife of Walter Stanley Peterson, son of Mr. and Mrs. J. W. Peterson of Banff.

For her wedding the bride wore a gown of white nylon fashioned with a full skirt and fitted bodice featuring a sweetheart neckline and long sleeves. A band of white carnations held her full-length veil in place and she carried a bouquet of red roses. Her hair was a gold-wire wisp and locket, gift of the bridegroom.

Frederick Peterson attended her sister as maid-of-honor. She chose a dress of pink satin and net styled with a sweetheart neckline and long sleeves. A wreath of pink carnations held her hair styled in place and she carried a bouquet of pink carnations.

Russell Peterson, brother of the bridegroom, was best man. Mrs. Jackson wore a full-length gown of pink carnations. Mrs. Peterson, mother of the bridegroom, chose a gray crepe dress and carried a bouquet of pink carnations.

A reception was held in the Buffalo hall during the evening.

Accessories are the punctuation marks of style. You can make or break a costume with accessories. So many things have to be considered when gathering accessories for your wardrobe. Color contrast, versatility, suitability for the occasion—and a host of other things.

Clothes-conscious women realize the very important role that the right bag, shoes, scarf—play in the part of a fashion-wise costume. Saw a perfectly beautiful coral brown garment suit—made instantly an attractive and feminine Kelly-green accessories. Kelly-green is fine—but this woman could wear the jewel-toned dress, and especially in such a large dose of accessories that will suit and make the "finished" look—just won't be there.

When you're choosing new accessories to complement the new season suit carefully the other costumes in your wardrobe. Try to have at least two sets of accessories that will suit and make the "finished" look—just won't be there.

Gloves this year have gained new prestige and are instrumental in carrying out interesting costume-color combinations.

You can buy gloves in almost any color of durable fabric, soft, comfortable, long or short—and oddly enough they're not too expensive.

Color is also underfoot for spring in suede, zibardines and leathers.

Accessories are the punctuation marks of style. You can make or break a costume with accessories. So many things have to be considered when gathering accessories for your wardrobe. Color contrast, versatility, suitability for the occasion—and a host of other things.

Clothes-conscious women realize the very important role that the right bag, shoes, scarf—play in the part of a fashion-wise costume. Saw a perfectly beautiful coral brown garment suit—made instantly an attractive and feminine Kelly-green accessories. Kelly-green is fine—but this woman could wear the jewel-toned dress, and especially in such a large dose of accessories that will suit and make the "finished" look—just won't be there.

When you're choosing new accessories to complement the new season suit carefully the other costumes in your wardrobe. Try to have at least two sets of accessories that will suit and make the "finished" look—just won't be there.

Gloves this year have gained new prestige and are instrumental in carrying out interesting costume-color combinations.

You can buy gloves in almost any color of durable fabric, soft, comfortable, long or short—and oddly enough they're not too expensive.

Color is also underfoot for spring in suede, zibardines and leathers.

Spring Flowers Bank Altar for Wedding

Spring flowers and fern decorated McDonald Baptist Church Thursday night at 7:30 p.m. when Joan Lawrence, daughter of Mr. and Mrs. A. O. Aleckson, became the bride of Desmond Cyril Beechey, son of Mrs. Thomas Beechey and Mr. E. Beechey, all of Edmonton.

Mrs. Patrick Millard, matron-of-honor, was crowned in blue tulle with matching hat and mittens and a veil of tulle.

Gerda Anderson, as bridesmaid, wore a flower rose sheer dress with matching lace mittens and a cascade of Sweetheart roses in her hair. Her bouquet was of spring flowers.

Flower girl, Carolyn Ray, was dressed in pale rose nylon, sheer with a cascade of flowers in her hair. She carried a Colonial bouquet of roses and carnations.

Ronald Beechey, brother of the bridegroom, was best man and usher. He wore a patterned suit and carried a Colonial bouquet of roses and carnations.

Mr. Shalen played the wedding music and during the signing of the register Alan Dyer sang "O Promise Me." The reception for 100 guests was held at the Club Aurora. A three-tiered cake surrounded with pink tulle and flanked by pink and white tapers and bouquets of roses centered the bride's table.

Receiving the guests, Mrs. Aleckson, the bride's mother, wore a blue crepe afternoon dress of navy blue complemented with a cascade of pink roses and rose accessories. Mrs. Beechey, mother of the bridegroom, wore a black and white printed silk ensemble with matching accessories and a cascade of tall palm fronds.

Mrs. K. Meiklejohn, Mrs. H. Berg and Mrs. J. Berg were bridesmaids.

Mr. and Mrs. Beechey will make their home at 11715 96 street.

WINNIPEG, April 23.—(CP)—Winnipeg grain prices showed a decided trend toward lower prices today with wheat, oats and barley and a maximum of 10 cents in revisions. The declines reflected a weaker tone in the Chicago market due to reports of good rains in the winter wheat belt, and disapproval in Canada of the export trade in oats and barley. Support here was thin and limited to some light shipper demand.

About 100,000 bushels of wheat were allocated for export to the United Kingdom. Prices of class No. 1 wheat for export to other than the United Kingdom were reduced six cents.
